

Lesson 1.1 – Introduction to podcasting

Welcome to the podcasting seminar!

I am glad you could make it and I am really looking forward to this event. I hope it will be a great experience for us all. Now let's start with the first lesson and let me introduce you to podcasting in general.

To do so, I have prepared a PowerPoint presentation for you which you can download in the [files section](#) of our workspace. Please watch the presentation to get a general overview on podcasting.

If you have any questions please use the [forum](#) to contact me or the other members of the seminar.

After watching the presentation you may continue with lesson 1.2 which will show you how to use iTunes to find and subscribe to podcasts.

Sebastian J. Dorok

PS: By the way – you do NOT need an iPod to use podcasts in your lessons. You will see ;-)
