

Advent Suncatcher

You will need:

- Advent Suncatcher Templates
- Black card
- Coloured tissue paper, cut into squares
- Pencil
- Sticky-back plastic
- Scissors

1) First, print out the Advent Suncatcher Templates. Neatly cut around the outline of your chosen suncatcher template with the scissors.

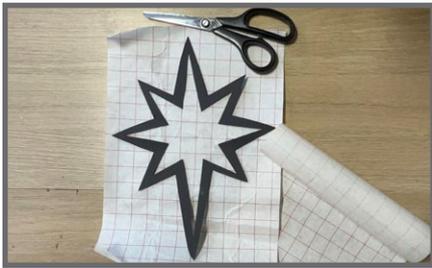

2) Next, place your chosen template over the black card and draw carefully around it with a pencil.

3) On the outside of the pencil outline, draw a larger version in pencil. This should create a border about 1-2cm wide.

4) Use the scissors to cut around the two pencil outlines to create a black border frame for the suncatcher.

5) For each suncatcher, cut two pieces of sticky-back plastic which are larger than the black card frame.

6) Remove the film from one piece of sticky-back plastic and place the suncatcher frame over the sticky side.

7) Begin adding small squares of colourful tissue paper onto the inside of the frame.

8) Continue adding squares of tissue paper until the inside of your suncatcher frame has been covered.

9) Place the second piece of sticky-back plastic over the suncatcher frame, sticky side down, and trim around the edges with scissors leaving a 1-2cm border.

10) Try using different colour combinations for each of your Advent suncatcher designs. Once they are ready, place them in a window and watch the light catch the squares of tissue paper.
